March, 2010

NTi Audio celebrates its 10th birthday

NTi Audio AG, headquartered in Liechtenstein, celebrates its 10th birthday these days. NTi Audio AG has been founded by a management buy-out from the connector company Neutrik AG on March 2000.

„Our worldwide success of the company is mainly due to the highly motivated, competent team that continuously develops innovative Test & measurement system for audio and acoustics applications. The actual products Minirator MR-PRO, XL2 Audio and Acoustics Analyzer and the PureSound production quality measurement systems are all leading in their relevant markets” says Philipp Schwizer, CEO of NTi Audio AG. „Management can develop a strategy and provide directions but the true innovations always are created by motivated team-members maintaining excellent networks to the industry. This close relationship with customers will also be maintained and developed in the future”, continues Schwizer.
