Dipl. Ing. Bedrich Votypka

NTi Audio opens Prague office

NTi Audio established the new Prague office for serving customers in the Czech Republic and Slovakia. For a smooth transition into the new organizational structure, the key manager has been retained from the former sales organization. The new NTi Audio Prague manager Dipl. Ing. Bedrich Votypka is a leading member of the Czech acoustic society for many years. The new office secures excellence in customer support in the region and underlines the company's growth.

NTi Audio announces the new office in Prague to strengthen the customer service in Czech Republic and Slovakia. Close cooperation with customers is essential in today's business, thus local customers get direct access to the manufacturer and factory support for professional solutions in sound level monitoring, acoustic analysis and audio measurements.

In order to guarantee a smooth customer service transition into NTi Audio Prague, the key manager Dipl. Ing. Bedrich Votypka has been retained from the former sales organization. Votypka is a senior acoustic engineer with a proven record of selling and supporting test & measurement systems at Brüel & Kjaer Prague for 28 years. The gained experiences as former service manager, followed by sales manager and CEO in the recent years are of high customer value for the new NTi Audio Prague office. The new venture is well positioned for challenging applications in Installation, Live Sound, Studio, Broadcast, Environmental Noise measurement and production testing.

"The established NTi Audio Prague office gives me the possibility to continue extending the market developments and customer support for NTi Audio", says Bedrich Votypka, General Manager of NTi Audio Prague and adds "The professional NTi Audio test and measurement solutions gained more and more customer interest in the recent years, thus I can focus to provide dedicated sales and application support to our customers in Czech Republic and Slovakia".

NTi Audio Prague is structured as a full-service organization, offering pre- and after sales support. Instrument for service and calibration are forwarded to the head office in Liechtenstein.
