

NTi Audio AG is a leading manufacturer of measurement instruments and solutions for audio, acoustics and vibration applications. At our headquarters in Schaan, Liechtenstein, we develop, manufacture and distribute measurement solutions for acoustic consultants, building physicists, sound reinforcement systems in public spaces as well as test equipment for the professional audio industry and industrial quality control.

In order to strengthen our development team, we are looking for a

PC-Software Developer (m/f/d – EU or Swiss citizen)

Your Main Tasks

- Analysis, development, testing and deployment of new PC-software solutions.
- Extension and maintenance of existing software packages.

Your Skills

- Good knowledge of .NET WPF (C#).
- Minimum 3 years of experience as a software developer.
- University degree in computer science (or comparable qualification) is a plus.
- Fluent in spoken and written English, knowledge of the German language is a plus.

What We Offer

- An extremely varied range of tasks with an international clientele.
- An open, trusting working atmosphere and very flexible working hours.
- A team of experienced developers with a passion for good sound.
- A designated family-friendly environment.
- Open-Door Policy.
